VIRTUAL POSTER ROOM

The virtual poster section is not much different from the virtual room you had the opportunity to visit during the on-line lectures at the 4th CCP Phenogenomics Conference 2022.

- Please take extra care with your camera, microphone. The control panel for turning these components on and off is located at the bottom of the screen.
- You can leave the virtual poster room with the red button in the upper right corner.
- Only the author of the poster can share any other documents or web pages. Button in the bottom right corner.
